

Training on Business Management & Enterprise Development for APONE & ALO Project Staff

Development Wheel (DEW) and Traidcraft Exchange Bangladesh jointly organized training on Business Management & Enterprise Development for APONE and ALO project staff which was held at BRAC CDM, Rajendrapur, Gazipur on 22 to 25 March, 2013. The training was conducted by the Mr. Shahed Ferdous, Country Director, TX-BD and co-facilitated by Mr. ABM Feroz Ahmed, Project Manager and AKM Shawkat Hasan, Project Coordinator, APONE project. Mr. Shah Abdus Salam, Executive Director, DEW was chair the training and gave opening speech for training objectives and warm welcomed to the newly joined ALO project staff. He addressed regarding our farmers who are the most respectable person for our country because of providing food for whole nations. He said that dew always wants to change the livelihood of small & marginal farmers though they can develop as well as attain their rights and use their small land as a new enterprise which will be ensure their sustainability. However, this project will also help directly to the farmer, how they can develop an enterprise as a new entrepreneur. In the training session different business & enterprise development related terms were discussed for better understanding of staff while they act as facilitator of field. Finally the training was concluded with a lively question-answer session.

DEW Executive Director Mr. Shah Abdus Salam addressed to the APONE & ALO project staff during the opening session on Business Management and Enterprise Development Training at BRAC CDM, Rajendrapur, Gazipur.
