Creating of this catalogue was co-financed by the Polish aid programme 2009 of the Ministry of Foreign Affairs of the Republic of Poland.

Fair trade by DEW

Development Wheel - DEW is a non-government voluntary development organization established in 1996 by a group of professionals and researchers to promote self-help poverty alleviation initiatives of the poorest households in Bangladesh towards sustainable improvement of their livelihood.

The mission of DEW is to contribute to socio-economic development in Bangladesh through promoting fair trade options for small producers.

Main Objectives:

- to provide a marketing channel for small producers in Bangladesh.
- to support producer groups with product development and marketing.
- to support producer groups through providing skills development training, credit, educational, climate change and its impact: mitigation strategy, health and other development support services.

Development Wheel works in Bangladesh – one of the most densely populated countries in the world. Bangladeshis are facing several challenges on everyday basis mainly connected with their geographical position such as flood, drought and cyclones. Despite of all they are trying to find their way to live with dignity and ensure the better future of their children. Half of the population is living below of the international poverty line of U.S.\$ 1.25 per day*.

Fair trade is one of the most efficient way to fight poverty in Bangladesh. It allows hundreds of artisans to make their income and change living conditions. Moreover, it also prevents child labour. Having in mind that working child is a common view in Bangladesh, by supporting producer groups it is possible to limit the number of children that earn money to survive.

Development Wheel provides work for artisans and takes care about education and health support for the families of producers.

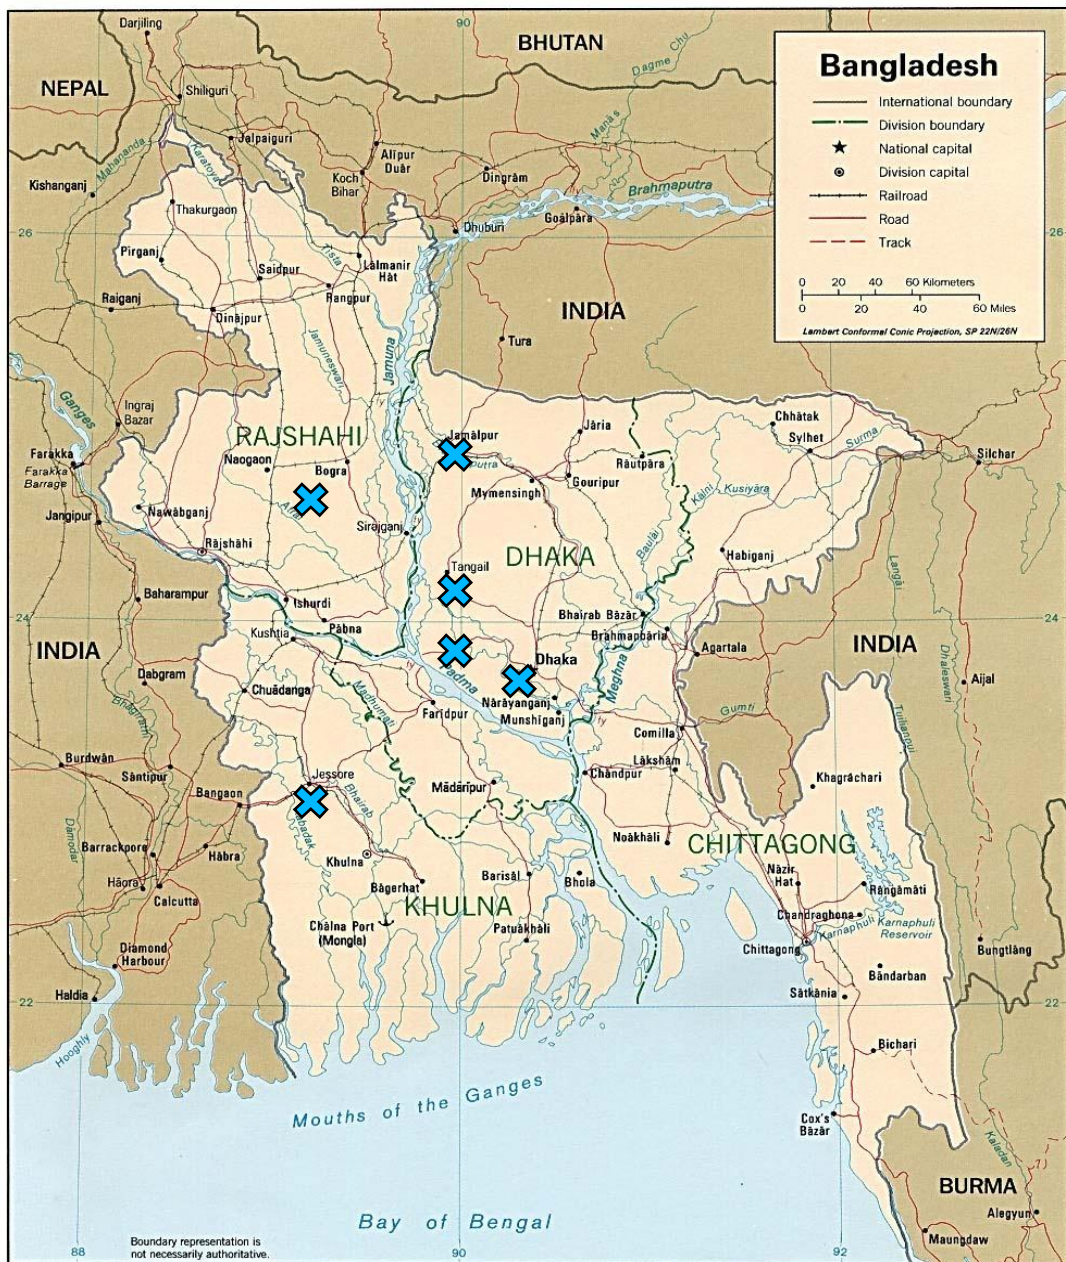

This catalogue aims to present some examples of the products made by producers' groups cooperating with Development Wheel.

Producer groups location

Development Wheel cooperates with producer groups in Dhaka, Bogra, Jessore, Tangail, Jamalpur, Manikgonj and plan to start working with groups in other places of the country.

At the moment there are 12 groups of artisans including 412 group members (273 are female and 139 are male) that are involved in handcraft.
